Bengaluru, Karnataka, 560062, India

Frontend Engineer with 1.8 years of experience building scalable, responsive, and accessible web applications using React.js, Next.js and TypeScript. Experienced in component-driven development, design systems, API integration, state management, and performance optimization. Strong understanding of modern frontend tooling and best practices, with a focus on clean architecture, maintainable code, and user-centric UI development.

Core Skills

Work Experience

Associate Software Engineer (Jun 2024 – Present)

Azodik Consulting Pvt. Ltd. | Jaipur

I have been actively involved in developing web applications using TypeScript and Next.js. Additionally, I am contributing to mobile application development with React Native, focusing on creating seamless user experiences.

Full Stack Developer (Intern) (Aug 2023 - Dec 2023)

Bharti Airtel | Gurugram

I engaged in extensive web development work utilizing HTML, CSS, and JavaScript for front-end development, alongside Java (Beginner) and Spring Tool Suite (STS) for robust back-end solutions enhancing the user experience and engagement.

Quality Analyst (Jul 2020 - Feb 2022)

Zimyo Consulting Pvt. Ltd | Gurugram

Quality Analyst with **1.8 years** of experience in software testing & Quality Assurance (QA)-(July 2020 to Feb 2022). Project: HRMS, Payroll, ATS (Applicant Tracking System), PMS (Performance Management System).

Projects

Azodik Design System

- Built a **CSS-first, monorepo-based design system** to standardize UI across products with reusable core, UI, and icon packages.
- Developed **accessible, themeable React components** using TypeScript with dark mode support and optimized frontend builds.

Tech Stack: React, TypeScript, Vanilla CSS, Vite, Turbo, pnpm

InvoiceFlow – Invoice Management System

- Developed a **responsive multi-tenant invoicing dashboard UI** with PDF views, role-based interfaces, and real-time data visualization.
- Implemented efficient **server-state management using TanStack Query** and optimized API integration for performance.

Tech Stack: React, TypeScript, Vite, TanStack Query

Azodik Editor – Photo & Video Editor

- Built a **modern desktop UI** for media editing including timeline-based editing, trim, and crop features.
- Designed responsive interfaces using **React and TailwindCSS**, ensuring smooth rendering and optimized UI interactions.

Tech Stack: Electron, React, TypeScript, TailwindCSS, Vite

Azodik Console

- Developed a **comprehensive multi-tenant SaaS management platform** which serves as an admin console for the Azodik platform.
- Implemented a **centralized dashboard** for managing cloud-based applications, workspaces, and services with enterprise-level features.

Tech Stack: React, TypeScript, Vite, Radix UI, TanStack Table, Recharts, i18next

AuthZio Playground

- Built a **client-side authentication utility interface** for JWT, Base64, UUID, and OTP tools.
- Developed using **Next.js App Router** with focus on performance, reusable components, and clean UX.

Tech Stack: Next.js, React, TypeScript, TailwindCSS 4, pnpm
